

# India's Road to COP26 Summit

Wednesday 5 May, 2021

India's Road to COP26 Summit is a key moment for Indian businesses to demonstrate their commitment and ambition to drive climate action on clean energy, industry and transport systems in the lead up to COP26

Indian businesses are ready, now more than ever, to drive market transitions towards clean and efficient energy and transport. The Climate Group's global campaigns pivot businesses as leaders in their industry and the world as championing climate action for India.

# About the event

The event is the first in a series of three events – in May, September (Climate Week NYC) and November (COP26). The three events will serve as a call for Indian companies to take further climate commitments and demonstrate their ambition on renewable energy, energy efficiency and electric mobility pathways.

**Opening ceremony:**  
India's road to COP26 summit:  
Business and climate action

The opening ceremony brings together top leaders from Indian business, government, and civil society to celebrate the role of businesses in accelerating India's ambition and action on the climate.

**Clean energy:**  
Raising ambition on accelerating  
a clean energy transition

Conversations on the role of businesses in driving demand and leading India's transition to clean energy through commitment, adoption and systems transitions.

**Energy productivity:**  
Inspiring energy-smart  
companies

Amplifying leadership of Indian companies in adopting solutions to reduce energy demand, and policies to further stimulate the uptake of energy efficiency measures.

**Electric mobility:**  
Driving demand and adoption  
of clean transport

Showcasing joint efforts of businesses and policy makers and what needs to be achieved to ensure EVs become the new normal in India in the next decade.
